PROGRAM III

"A FIGURE-HEAD FOR A PRESIDENTIAL YACHT"

The subject of this program is a figure-head for a new Presidential Yacht. This yacht will be a two-mast wooden sailing yacht with auxiliary gasoline power. The name "The Mayflower" of the former Presidential Yacht will be retained, and that, including the fact that the sole purpose of the yacht is for official and personal cruises of the President, should determine the character of the figure-head, which must be a human figure with whatever accessories, if any, are desired by the competitor.

The bowsprit is at a slight angle with the horizontal level, and the figure-head is directly under the bowsprit and is to be of wood and spliced to the up-turning keel, where its dimensions are 12x12 inches and where the angle of inclination with the horizontal is about 60 degrees. The distance from the bottom of the bowsprit to the water line is to be about 12 feet. The diameter of the bowsprit is 12 inches where it joins keel and bow. The yacht is 70 feet in length and a 20 foot beam.

Besides the angle and dimensions given, the exact shape and form of the prow from where the figure-head commences is to be left to the competitor. The Presidential Yacht will be painted white, and the figure-head may be gilded or painted white or such colors as may seem desirable to the competitor.

Competitors, especially those unacquainted with boat shapes, are advised to study shapes and designs of bows of yachts and figure-heads in the Public Libraries.

Definitions: Bowsprit—a large boom or spar running out from the prow of a vessel to carry its sails forward. Keel—the chief and lowest timber of a vessel, extending from prow to stern and supporting the whole frame. Prow—the forepart of a ship.

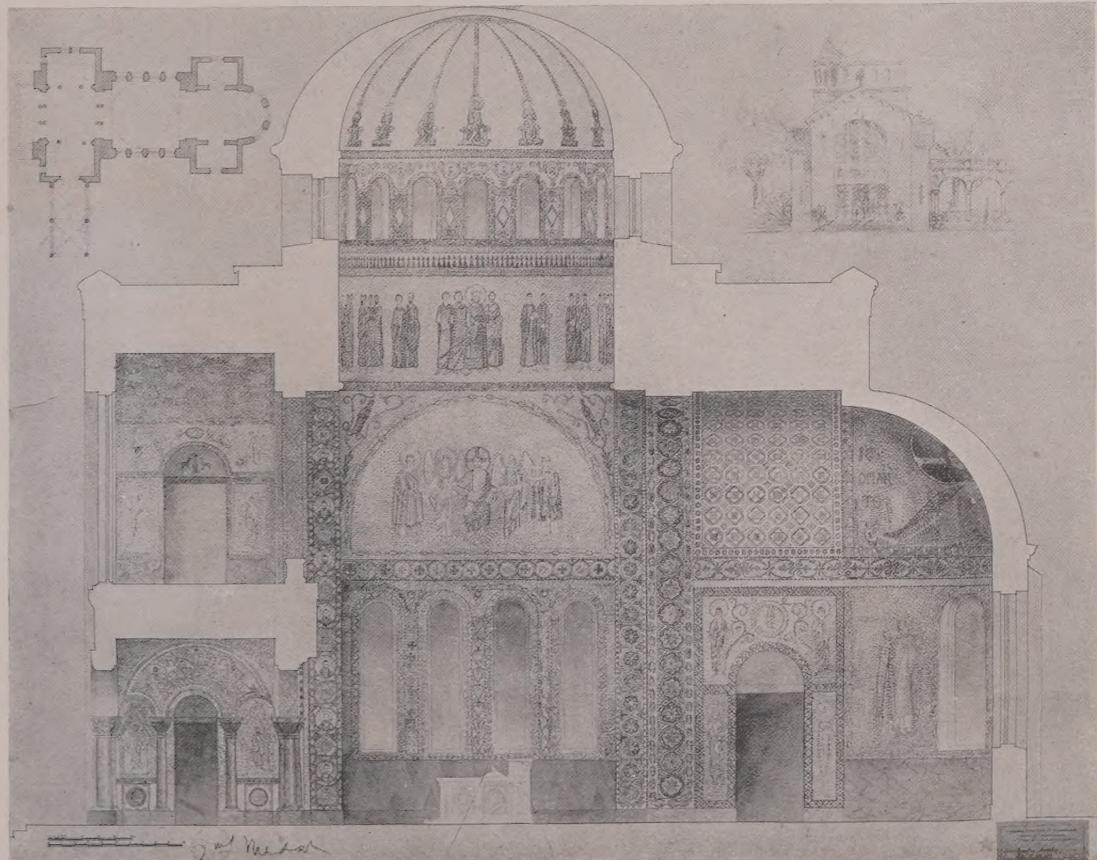

JURY OF AWARDS: William A. Boring, A. de Francisci, Gleb Derujinsky, Robert G. Eberhard, J. B. Ellis, F. Lynn Jenkins, C. Paul Jennewein, Henry Hering, C. Grant La Farge, Edward McCartan, Charles G. Peters, Edmond T. Quinn, Henry R. Rittenberg, Henry R. Sedgwick.

Department of Architecture

CLASS "B"—II ANALYTIQUE

"A TOMB ARRANGED LIKE NAPOLEON'S"

In the center of a high domed chapel it is proposed to erect a tomb in honor of a national hero. The desire of the Committee in charge is to have the tomb itself in an open crypt below the level of the chapel with ample opportunity for circulation in the chapel above arranged like that of Napoleon's tomb. The open space of the crypt itself is 30 feet across and the design of the sarcophagus is left to the competitor. It is desired to show the crypt and its marble mosaic floor paving.

JURY OF AWARDS FOR FIRST MENTION: George A. Licht, Jos. H. McGuire, F. A. Nelson, Frank J. Robinson, Wm. E. Shepherd, Jr.

JURY OF AWARDS: Philip L. Goodwin, W. Frank Hitchens, George A. Licht, Jos. H. McGuire, F. A. Nelson, Homer F. Pfeiffer, Frank J. Robinson, Wm. E. Shepherd, Jr.

CLASS "B"—II PROJET

"A TENNIS COURT BUILDING"

A town of about 10,000 inhabitants, situated near a large metropolis, has become the center of tennis activities due to the location of an important tennis club in this town. Owing to climatic conditions it is impossible to play lawn tennis during four months of the year and the club has, therefore, decided to put up a special building for indoor tennis.

The club has allotted from its grounds a plot directly opposite the main existing club building, with a depth of 200 feet and a frontage on the road of 300 feet.

The requirements for the new building are:

Two tennis courts, each having floor space 50 x 118 feet and at least 30 feet clear in height, lighted from above, with additional space for spectators.

Ample entrance space.

An ample lounge room with fireplace.

Two sets of locker rooms, for men and women, each with 40 lockers, toilet rooms with two showers each.

All of the above shall be on the first floor, except that a gallery or galleries for spectators is optional. The heating, coal, etc., in basement.

JURY OF AWARDS FOR FIRST MENTION: Wm. Harmon Beers, Walter D. Blair, Philip A. Cusachs, J. H. Freedlander, Albert S. Gottlieb, Vahan Hagopian, Frederick R. King, Wm. W. Knowles, Wm. F. Lamb, Fred V. Murphy, James W. O'Connor, Theodor F. Price, Henry R. Sedgwick, John V. Van Pelt.

JURY OF AWARDS: Wm. Harmon Beers, Walter D. Blair, John T. Briggs, Harvey W. Corbett, Philip A. Cusachs, Otto Faelton, J. H. Freedlander, Albert S. Gottlieb, John F. Gunther, Vahan Hagopian, Frederick C. Hiron, Raymond M. Hood, Frederick R. King, Wm. W. Knowles, Wm. F. Lamb, H. Oothout Milliken, Sherley W. Morgan, Fred V. Murphy, James W. O'Connor, Theodor F. Price, Henry R. Sedgwick, John V. Van Pelt, Glen C. Wilson.

CLASS "A" II PROJET—INTERIOR DECORATION

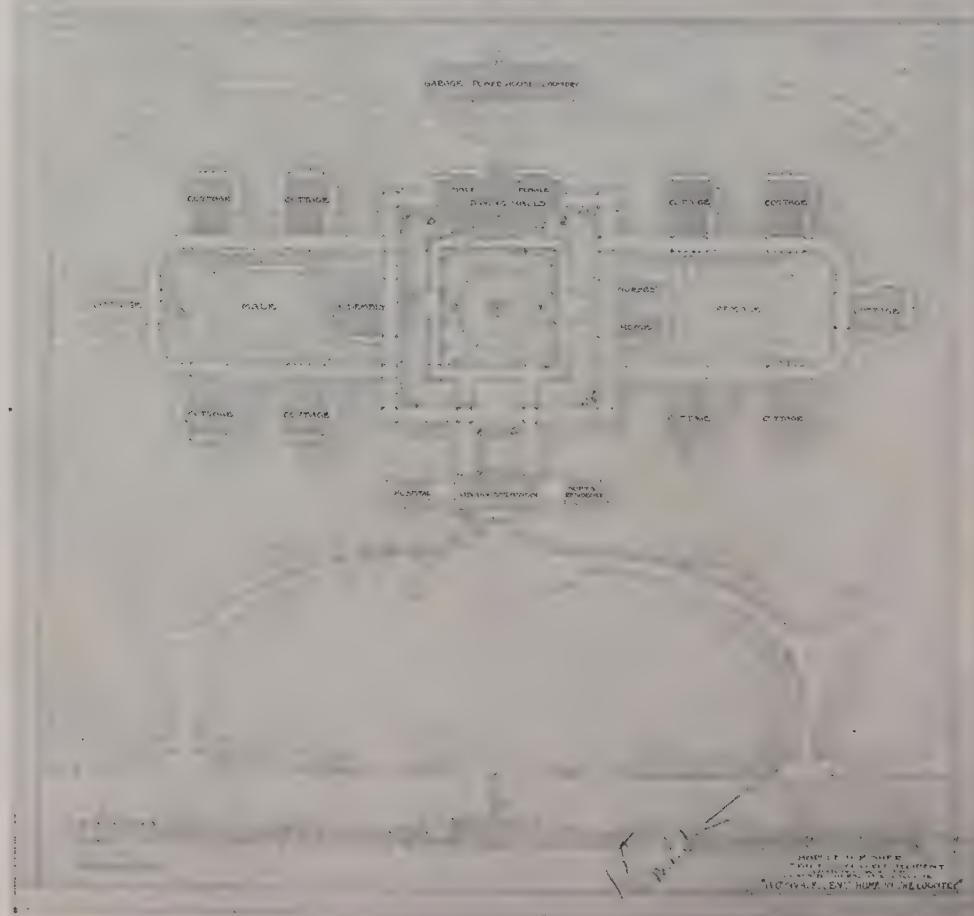

"A BYZANTINE BAPTISTRY"

Near a Cathedral, but detached, are indications of the foundations and a few fragments of a Byzantine Baptistry. The fragments show some beautiful capitals and pieces of marble and glass mosaic. The foundation is so demolished that it can only serve for general location.

A wealthy citizen has decided to rebuild this building as a memorial and to restore it to its original condition as nearly as can be done. He wishes the building to be from 30 to 40 feet. inside dimensions. He wishes the font placed in the center as there are evidences of steps indicating that the font was in that position. The fragments of marble were probably used for revetments and the glass mosaics for the upper parts of the walls. It is not clear what the particular construction of the roof or dome was. There may have been large mosaic figures in the decoration.
